about us

bj's foods was established in a suburban kitchen when founder, Justin Plummer took great interest in his mothers cooking while growing up in Brisbane's western suburbs. From there, via an indirect route, bj's foods has become established in the Brisbane catering and hospitality industry.

From a small start with our first catered wedding for 80 guests, bj's foods have grown year after year. Our most important measure of success is the many word of mouth referrals from satisfied clients who have had an outstanding event or function. Without these clients we would be nothing, and it is for them that we strive to continue our mission: *exceptional service and outstanding customer value for each and every client.*

As we approach our next anniversary we can look back on hundreds of successful events, weddings, and special occasions, all designed specifically for the individual client. Everyone in the bj's foods team strive to make your event a memorable experience. It is due to the team's dedication and focus that bj's foods enjoys a reputation for delivering quality, value and exceptional service every time.
